

**THE ASSISTANT SECRETARY OF THE NAVY**  
(RESEARCH, DEVELOPMENT AND ACQUISITION)  
1000 NAVY PENTAGON  
WASHINGTON DC 20350-1000

MAR 5 2014

The Honorable Joseph R. Biden, Jr.  
President of the Senate  
Washington, DC 20510

Dear Mr. President:

This provides the Navy's annual report to Congress required by the foreign ship repair statute, 10 U.S.C. § 7310, listing all repairs and maintenance performed on any covered Navy vessel in any shipyard outside the United States or Guam during the preceding fiscal year.

This foreign ship repair report covers maintenance and repair of Navy and Military Sealift Command (MSC) vessels conducted in foreign shipyards during Fiscal Year (FY) 2013. Approximately 3.34 percent of the total Navy and MSC funds for maintenance and repair were expended in foreign shipyards in FY 2013. This low level of foreign repairs was deemed essential to sustain the high operational tempo for 18 MSC ships and 111 Navy ships deployed during this period. Specifically, the data affirms that 18 MSC vessels required approximately \$58.1 million for repairs accomplished in foreign shipyards, of which approximately \$10.3 million were for voyage repairs. This represents 11.2 percent of the total MSC funds expended for maintenance and repair of MSC owned vessels. One hundred eleven (111) Navy ships required approximately \$194.5 million for repairs accomplished by foreign contractors or in foreign shipyards, of which approximately \$6.2 million were for voyage repairs. This represents 2.8 percent of the total Navy funds expended for maintenance and repair. The enclosures provide the information requested for MSC vessels (enclosure 1), Bahrain (enclosure 2), the Western Pacific (enclosure 3), Japan (enclosure 4) and Naples, Italy (enclosure 5).

The FY 2013 National Defense Authorization Act (NDAA) added a requirement to report foreign repairs of vessels operated pursuant to a contract entered into by the Secretary of the Navy and the Maritime Administration or the United States Transportation Command in support of Department of Defense operations. All United States Transportation Command covered naval vessels are managed by MSC. Prior to the passage of the FY 2013 NDAA, existing MSC contracts for such charters did not require maintenance reporting. MSC is implementing contract changes for existing charters mandating that the ship owners provide required repair information. All such future contracts will require maintenance and repair information. Since the FY 2013 NDAA, MSC entered into one charter which operates only along the United States coast and will not be repaired in foreign shipyards.

A similar letter has been sent to the Speaker of the House, Chairmen Rogers, Levin, McKeon, Durbin, Frelinghuysen, and Chairwoman Mikulski. If I can be of further assistance, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read 'SJS' with a stylized flourish at the end.
